

The diagram illustrates the architecture of Mobile Phone 2. It consists of a large container labeled "Mobile Phone 2" which contains three main components: "IC Card Driver 3", "Access Module 4", and "IC Card 5". "IC Card Driver 3" is at the top, "Access Module 4" is in the middle, and "IC Card 5" is at the bottom. Bidirectional arrows connect "IC Card Driver 3" to "Access Module 4", and "Access Module 4" to "IC Card 5". Outside the container, "User 1" is shown on the left, with a large arrow pointing from "User 1" into the "Mobile Phone 2" container, specifically towards the "Access Module 4".
